Story:

As humans become more aware of the world, we are getting smaller. Until the civilization developed into a certain day, the

---

ancient gods woke up in a deep sleep. The biggest turning point in human destiny began. People called that day the "end of civilization. That's the story begin.

**Basic Score Rule:**

The last two survived will both get 1 basic point, including died. So you can make a suicide attack when 3 players rest.

Combining laser to damage ship/missile/boss will also get 1 basic point.

The higher score will get more achievement, and your steam user name will put in global leaderboard.

**How to calculate score each time:**

$$\text{Final Score} = \text{basic point} * (\text{Chapter Factor} + \text{Chapter Counter})$$

Chapter Counter is 1, and will increase by 1 when system switch to next chapter. So the player who join game later can catch up with the early joined player.

Chapter Factor is relate with the Chapter itself, for example, this factor in boss chapter is 10.

So if Boss Chapter is the fifth chapter, each time you damage boss, you will get:

$$\text{Final Score} = 1 * (10 + 5) = 15$$

I'm sure this was a blast to work on, but it just doesn't feel like a full fledged game, may be worth the price if you want to support those that made it, but I have yet to find a group of friends that really enjoyed the game, it gets pretty repetitive and old really quickly. Props to those that developed it, and hope you keep making more, because it feels like there is potential, just doesn't feel quite there yet.

**Raising Price Notification:**

Hi, players, I hope you enjoyed the game.

The Price of LaserParty will rise to 3.99\$ after first month.  
And will follow with a new free update.

Happy Holiday!
